

MODERN OUTPLACEMENT SOLUTIONS
THAT ARE MORE

HUMAN

WE HELP EMPLOYER
BRANDS REACH THEIR
FULL POTENTIAL
THROUGH ACTIVE
ENGAGEMENT™

*Outplacement is critical to your employer brand
which is critical to shareholder wealth creation.*

Through **Active Engagement™**, GetFive has redefined outplacement to be more than just career transition support. By ensuring that your outbound employees are immediately focusing on their careers - rather than their frustrations - we are able to substantially reduce the adverse impact on your **social reputation**. In a world of community ratings, avoiding negative reviews is every bit as important to your employer brand as garnering positive ones.

To meet this challenge, high performing companies require an effective end-to-end talent management strategy, of which GetFive Modern Outplacement is an integral part. We are the critical **HUMAN** extension of the organization as your exiting employees enter their transitions. The offboarding process may consist of a long checklist, but no one is positioned to tackle the employee's most significant source of stress and shape their path forward like we can.

Bottom line:

*Invest in the success of your outbound employees and
watch your employer brand thrive.*

smarter resources. more human.
